Novamobili si impegna per ridurre al massimo l'impatto dei propri processi produttivi sull'ambiente.

Con questo intento ha messo a punto un esclusivo sistema di laccatura opaca all'acqua, che rappresenta oggi la risposta più avanzata in tema di rispetto della natura, di tutela della salute e di qualità del prodotto. Con questa finitura ecologica, si riduce di oltre il 95% l'emissione di solventi inquinanti in atmosfera. Questo tutela la salute non solo di coloro che fabbricano i prodotti, ma anche delle persone che con i mobili convivono; per la sicurezza dei più piccoli, è utile sapere che in caso di contatto con la bocca, le vernici all'acqua non sono nocive, nel rispetto della rigorosa Norma Europea EN 71.3.

Il bello dell'ecologia.

Le vernici a base d'acqua, applicate con impianti moderni ed efficienti, offrono una resa superiore alle vernici tradizionali: le superfici trattate si presentano distese, morbide al tatto e mantengono un'ottima brillantezza dei colori nonché una eccezionale durezza e resistenza chimico-fisica della finitura nel tempo.

Water-based paints

95% less emissions.

Novamobili is committed to reducing the impact of its production processes on the environment as much as possible.

To this end, we have devised an exclusive water-based matt lacquering system that today represents the most advanced solution in terms of conservation, health protection and product quality. Using this environmentally friendly finish reduces the emission of polluting solvents into the atmosphere by over 95%. This protects not only the health of those involved in manufacturing, but also of the people who live with the furniture produced; parents will find it reassuring to know that, in compliance with the strict European standard EN 71.3, water-based paints are not harmful when they come into contact with little mouths.

The beauty of eco-awareness.

Water-based paints, applied with efficient modern equipment, give much better results than traditional paints: the treated surfaces are smooth, soft to the touch and maintain excellent colour brilliance, while producing a finish with exceptional lasting hardness and chemical and physical resistance.

Pannello Ecologico

Coltiviamo la salute del pianeta.

Novamobili utilizza pannelli nobilitati atossici nel pieno rispetto della normativa Europea classe E1. Il Pannello Ecologico è realizzato esclusivamente con il reimpiego di legno, mediante un processo produttivo di qualità certificata che rispetta l'ambiente perchè non comporta l'abbattimento di alberi.

Eco panel

Taking care of the health of the planet.

Novamobili uses non-toxic foil-wrapped panels to European class E1. Our Eco Panel is made entirely of recycled wood by a quality-certified production process that is environmentally friendly as it does not involve felling trees.
