# LIVING CONTEMPORANEO TRA DESIGN E ARTIGIANALITÀ

CONTEMPORARY LIVING BETWEEN DESIGN AND CRAFTSMANSHIP

**DESIGN SARTORIALE** Riflessi crea arredi dallo stile rigoroso, coniugando forme la cui bellezza si misura con le esigenze di praticità, tipiche delle abitazioni contemporanee. Quello di Riflessi è uno stile caratterizzato da linee pulite ed essenziali, "ammorbidite" da delicati interventi decorativi realizzati con particolari tecniche di lavorazione, come la serigrafia e la martellatura. Ogni pezzo è il risultato di un percorso unico, fatto di ingredienti e "sapori" diversi, di ricordi personali, di citazioni di vita vissuta, tradizione e design, ma anche di ascolto e di collaborazione tra competenze diverse. Tutto nasce e si sviluppa all'interno di una produzione flessibile quasi "sartoriale".

**MADE IN ITALY** Riflessi fonda l'esperienza nella continua innovazione e da qui parte per esportare nel mondo i propri prodotti di design rigorosamente Made in Italy. Il progetto, la tecnologia e la ricerca dei materiali nascono dagli studi di architetti, ingegneri e designer italiani. L'intera produzione è effettuata nei nostri stabilimenti in Italia e sottoposta a rigorosi controlli sulla qualità. Non basta scrivere "made in Italy", bisogna vivere "made in Italy".

**TAILORED DESIGN** Riflessi creates strict style furniture, combining forms whose beauty is measured with the demands of convenience, typical of contemporary homes. Riflessi is a style characterized by clean lines, "softened" by delicate decorative interventions made with special techniques, such as screen printing and hammering. Each piece is the result of a single path, made of ingredients and different "tastes", personal memories, quotes from real life, tradition and design, but also listening and collaboration between different skills. Everything is born and developed in a flexible manufacturing firm almost "tailor".

**RIFLESSI'S MADE IN ITALY** Based experience in the continuous innovation and from here Riflessi starts to export its products in the world of design Made in Italy. The design, technology and materials research arise from the studies of architects, engineers and Italian designers. The entire production is carried out in our factories in Italy and subjected to strict quality control. It's not enough to write "made in Italy" we must live "made in Italy".

È UNICO PERCHÈ REALIZZATO CON UN MATERIALE INNOVATIVO DI ORIGINE MINERALE ALTAMENTE RESISTENTE E SI COMPONE DI UN SOLO PEZZO SENZA GIUNTURE E FUGHE IT'S UNIQUE BECAUSE IT IS MADE WITH AN INNOVATIVE MATERIAL OF MINERAL ORIGIN HIGHLY DURABLE AND IS MADE OF A SINGLE PIECE, WITHOUT SEAMS AND JOINTS

**TECNORIL®**

È un materiale costituito utilizzando il 70% di minerale naturale in combinazione con resina acrilica al 100% di altissima qualità (ATH & PMMA) e non resina poliestere. Resta inalterato nel tempo, conservando il suo colore originale non ingiallendo. Un materiale compatto, igienico e ignifugo, non rivestito o laminato, che consente di ottenere installazioni eleganti e di alto rendimento. La superficie compatta e non porosa è durevole e facile da pulire con i comuni prodotti di pulizia domestica.

Tecnoril® is material consisting of 70% natural mineral material combined with high quality acrylic resin (ATH & PMMA), rather than polyester resin. This ensures conservation of its original color for a long time without yellowing. It is a solid material, hygienic and flame-retardant, not coated or laminated so it can be used to obtain high-performance, elegant installations with excellent yield. The compact, nonporous surface is durable and easy to clean with normal household detergents.

# CONSOLLE ALLUNGABILI

## PER FARE UN TAVOLO CI VUOLE UNA CONSOLLE

EXTENDIBLE CONSOLES. TO MAKE A DINING TABLE WE NEED A CONSOLE

### UN NUOVO CONCETTO DI UTILIZZO DELLO SPAZIO

Riflessi ha rivoluzionato il concetto di utilizzo dello spazio, che diventa flessibile e si trasforma in base alle esigenze del momento. Un punto di vista che non riguarda soltanto gli ambienti più piccoli che richiedono nel progetto d'arredo l'ottimizzazione degli spazi ma che coinvolge tutti coloro che desiderano un prodotto dalle alte prestazioni tecnologiche e funzionali. Le consolle allungabili sono il risultato di questo percorso che ha portato l'azienda ad investire in tecnologia e innovazione. La caratteristica di questi apparentemente piccoli oggetti di arredo è che in pochi gesti si trasformano e da una modularità di circa 50 cm possono diventare tavoli che raggiungono dimensioni fino a 3 metri di lunghezza.

### A NEW CONCEPT OF USE OF SPACE

Riflessi have revolutionised the concept of space use, which becomes flexible and is transformed according to the needs of the moment. A point of view that is not just for smaller ambiances that require furniture design optimization of space but that involves all those who want a product with high technological and functional performance. The consoles are the result of extending this path that led the company to invest in technology and innovation. The characteristic of these seemingly small items of furniture which is in turn a few gestures and a modularity of about 50 cm can be sized tables that reach up to 3 meters in length.

Un solo gesto permette una trasformazione quasi impensabile: la modularità di estensione consente ad una piccola consolle di 50 cm di diventare un tavolo che raggiunge la lunghezza massima di 3 m. Con il nuovo sistema di apertura meccanico semiautomatico, le gambe centrali della consolle sono a scomparsa e sono spostate verso l'interno, in modo da evitare l'ingombro quando ci si siede ai lati centrali del tavolo.

A single gesture allows a transformation almost unthinkable: the modular extension allows a small console 50 cm to become a table that reaches a maximum length of 3 m. # OGGETTI D'ARREDO

FURNISHING OBJECTS

## IL GIORNO E LA NOTTE PER RIFLESSI

La zona giorno è un ambiente della casa dalle mille sfaccettature che si compone di tanti piccoli angoli dedicati e caratterizzati con degli oggetti d'arredo che rispondono a precise funzioni: è il caso del tavolino da accompagnare al divano, oppure della vetrina nella quale disporre in bellavista i propri oggetti preziosi. Non meno importante è lo specchio per l'ingresso dotato di luce e ripiano, o la lampada in due dimensioni. Riflessi dal living inizia inoltre ad esplorare la zona notte soffermandosi, innanzitutto, su mobili contenitori. Nascono così i comodini e la cassetiera Segno e Ola.

## DAY AND NIGHT FOR RIFLESSI

The living area of the house is a multi-faceted environment that consists of many small corners dedicated and characterized with the decorative objects that respond to specific functions: this is the case of the coffee table to match the sofa, or the window in which to have their valuables on display. No less important is the mirror for the entry with light and shelf, or the lamp in two dimensions. Riflessi from the living area also began to explore the sleeping area focusing, first, on cabinets. This is how the bedside tables and dresser Segno and Ola were born.

## DIMENSIONI DIMENSIONS

TECNORIL® è un materiale costituito utilizzando il 70% di minerale naturale in combinazione con resina acrilica al 100% di altissima qualità (ATH & PMMA) e non resina poliestere. Resta inalterato nel tempo, conservando il suo colore originale non ingiallendo.

Un materiale compatto, igienico e ignifugo, non rivestito o laminato, che consente di ottenere installazioni eleganti e di alto rendimento. La superficie compatta e non porosa è durevole e facile da pulire con i comuni prodotti di pulizia domestica.

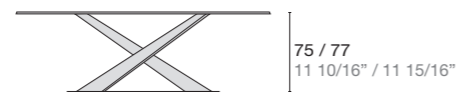

Tecnoril® is material consisting of 70% natural mineral material combined with high quality acrylic resin (ATH & PMMA), rather than polyester resin. This ensures conservation of its original color for a long time without yellowing. It is a solid material, hygienic and flame-retardant, not coated or laminated so it can be used to obtain high-performance, elegant installations with excellent yield. The compact, nonporous surface is durable and easy to clean with normal household detergents.
